

DAY THREE (15TH OF JULY, 2017)

TOPIC: WHAT ALL HUMAN BEINGS NEED(OHUN TI GBOGBO ENIYAN NILO)

TEXT: GENESIS 3: 16 - 24

Dear listeners, what the Lord asked me to tell the listeners tonight is what every human beings need. The Lord asked me to tell you tonight that what so ever you might have accomplished or acquired in life. There is something you need, which is more valuable and necessary than your current possessions. Sirs and Mas, I hope you have completed that mansion, you have secured that expensive car of your heart desired, you have secured that juicy employment, you have finally got to the post, the contract is finally in your hand, you have finally get married after so many challenges, thank God that child had finally arrived, thank God you have finally mount the royal throne of your fore-fathers, thank God that you are now a commissioner, honourable minister of the federation, local government chairman, governor or deputy, president or vice president. With that billions of dollars, naira, celfa etc. Your creator ask me to tell you that it remains one thing which everyone needs. Either you are rich or poor, either you are popular or not, there is something which all you have spent your years of life to acquired cannot replaced.

In the beginning when God created human beings, he created us with everything we shall need. No one needs to struggle for anything. What do you have today that you did not toiled for or steal it by any medium of stealing. Today, the people in leadership positions across the board cheat and embezzled the money meant for their subjects. But it was not like that in the beginning. When human beings disobeyed God that was when toiling or stealing become a way of living for human beings. The Lord cursed the man and he also cursed the woman and I think God will leave it that way. Unfortunately, God did not stop at cursing them, but he went ahead to banish human beings from life. He sent human beings away from the Eden garden, but to where? Into troubles, afflictions, woes, assassination, kidnapping, anguish, and all sorts of trouble and finally to eternal

damnation. So it was this predicament that created a need which I am talking about for every human being tonight. And that need is a need of **salvation** from this doom. Dear honourables, governors, presidents, high chiefs, managing director, though you have had those post, do you possess **salvation**. Husbands and wives, you have had spouse, but do you have **salvation**, brothers and sisters you have had boy and girlfriend, but do you have **salvation**? Religious leaders thank God you have your religion, but do you have **salvation**? Thank God you have great and big companies and investment like this radio station, but do you have **salvation**? What all men needs is **salvation** regardless of your language, race, country and tribe. Till next week keep ruminating on this.

*** The word Salvation is deliberately shaded in yellow colour to signify that that is what all human beings need.
