

## **DAY ONE (1ST OF JULY, 2017)**

**TOPIC: SALVATION ISSUE (ORO IGBALA)**

**TEXT: ROMANS 3: 23, 24**

I bring greetings to all listeners of this radio station, gravity F.M, 88.1, Igboho. I greet you in the name of God, His Christ and in the name of all members of Ayekale Baptist Church the temple of glory, Sakitoro area in Saki, Oyo State, Nigeria. I greet you for the love you have to be listening to this station because I am very sure that you will extend that love to this particular program which the Lord is starting on this station today.

Permit me to quickly inform you that all we shall be doing on this maiden edition is to lay the foundation for this program. I will also like to inform you that the type of a building determines its foundation. Because of what the Lord had purposed to do with this program, if we cannot finish with the foundation laying tonight, we may continue by next week, because we must get it right from the very beginning.

By the grace of God, I have listened to several radio programs both in Nigeria and some foreign countries radio stations. These programs focused on different challenges of life such as political issues, stock and exchange issues, economy issues, academic issues, family issues, technology issues, sport issues, religious issues etc. But as these issues are being discussed day in day out, things are getting deteriorating on daily basis.

Then the Lord called on me and sad son, there is an issue not yet discussed and unless this particular issue is discussed, until the whole world can understand it every other issues being discussed shall have no positive impact on our world. Then I said Lord, what is the issue? And God said it is the issue of salvation. The Lord says no other issue discussed can solve the problem of the world because His glory had departed the earth. **(Rom. 3: 23, 24)** And this glory is restored through the salvation of Jesus Christ. Until the issue of salvation is vividly discussed and salvation

takes its place in the heart of world, every other issues discussed will be in futility and of no relevance. That is why I want declare that "**SALVATION ISSUE**" is not a religious program but salvation program. We shall continue with the foundation next week because the foundation laid tonight cannot sustain the contents of "**SALVATION ISSUE**"
